Punjab

Light to moderate rainfall was observed from the northeastern parts of the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 40.4°C & 25.6°C respectively. For the recent week, on average, 152.3 growing degree days were accumulated. Average relative humidity recorded as 41% and wind speed in the morning/evening recorded as 3.5/2.7 Knots. The highest total rainfall was recorded as 41.5 mm at Lahore during the last week. The highest maximum temperature was recorded as 47.5°C at Bhakkar.

Crops: Peanut (Pothohar Region), Maize (Northeastern Punjab), Cotton (Central and Southern Punjab)

Balochistan

Mainly dry weather prevailed over the most parts while light rainfall was reported from an isolated location in northwestern part of the province during the last week. Weekly mean maximum and minimum temperatures were recorded as 40.1°C & 24.9°C respectively. For the recent week, on average, 191.9 growing degree days were accumulated. The average relative humidity recorded was 27% and mean wind speed in the morning/evening was recorded 6.2/1.7 Knots. The highest maximum temperature was recorded as 50.0°C at Turbat.

Crops: Wheat

Khyber Pakhtunkhwa

Mainly dry weather was reported from the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 34.7°C & 19.3°C respectively. For the recent week, on average, 119.2 growing degree days were accumulated. Average relative humidity recorded as 46% and mean wind speed in the morning/evening recorded as 2.2/0.8 Knots. The highest total rainfall was recorded as 4.00 mm from Bannu during the last week. The highest maximum

temperature was recorded as 44.1°C at Dera Ismail Khan.

Crops: Maize

Sindh

Dry weather was reported from the province during the previous week. Weekly mean maximum and minimum temperatures were recorded as 43.4°C & 28.1°C respectively. For the recent week, on average, 166.7 growing degree days were accumulated. Average relative humidity recorded as 52%, and mean wind speed in the morning/evening recorded as 5.4/5.4 Knots. The highest maximum temperature was recorded as 51.5°C at Dadu.

Crops: Cotton

Gilgit-Baltistan and Azad Jammu & Kashmir

Light rainfall was reported from Gilgit Baltistan and Azad Jammu & Kashmir during the previous week. Weekly mean maximum and minimum temperatures were recorded as 30.6°C & 14.8°C respectively. For the recent week, on average, 123.2 growing degree days were accumulated. Average relative humidity was recorded as 42%, and mean wind speed recorded in the morning/evening as 6.6/0.7 Knots. The highest total rainfall was recorded as 11.00 mm from Muzaffarabad during the last week. The highest maximum temperature was recorded as 41.1°C at Kotli.

Crops: Wheat

Past Weather for Major Agricultural Plains
(25th – 31st May 2026)

Rawalpindi (Pothohar region)

Dry weather was reported from Rawalpindi during the week; however, cloudiness in the morning/evening was recorded as 2.0/1.4 Oktas during the week, while average relative humidity was observed as 39%. The mean day time temperature was recorded as 39.0°C & for the recent week, 177.4 growing degree days were accumulated for Peanut crop. Mean wind speed recorded in the morning/evening as 0.1/0.3 Knots. The highest maximum temperature was recorded as 42.0°C.

Dry weather was reported from Faisalabad during the week; however, cloudiness in the morning/evening was recorded as 0.8/1.0 Oktas during the week, average relative humidity was observed as 34%. Mean day time temperature was recorded as 40.3°C & for the recent week, 198.5 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 2.3/2.5 Knots. The highest maximum temperature was recorded as 44.0°C.

Tandojam (Lower Sindh)

Dry weather was reported from Tandojam during the week, however, cloudiness in the morning/evening was recorded as 0.0/0.8 Oktas during the week while average relative humidity recorded as 68%. Mean day time temperature was recorded as 39.8°C & for the recent week, 196.0 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 5.1/5.7 Knots. The highest maximum temperature was recorded as 42.0°C.

Usta Muhammad (Eastern Baluchistan)

Dry weather was reported from Usta Muhammad during the week, however, clear sky was observed during the week. On average, relative humidity was recorded as 37%. Mean day time temperature was recorded as 43.3°C & for the recent week, 201.8 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 4.0/3.7 Knots. The highest maximum temperature was recorded as 46.0°C.

Quetta (Northern Baluchistan)

Dry weather was reported from Quetta during the week; however, cloudiness in the morning/evening was recorded as 0.0/1.0 Oktas during the week. On average, relative humidity was recorded as 13%. Mean day time temperature was recorded as 35.2°C & for the recent week, 152.0 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 1.4/4.4 Knots. The highest

Past Weather for Sub-Regional Agricultural Plains (25th – 31st May 2026)

Multan

Dry weather was reported from Multan during the week; however, cloudiness in the morning/evening was recorded 0.7/0.4 Oktas during the week while average relative humidity observed as 34%. Mean day time temperature was recorded as 41.6°C & for the recent week, 166.0 growing degree days were accumulated for Cotton crop. Mean wind speed recorded in the morning/evening as 4.9/3.4 Knots.

Lahore

Rainfall was reported as 41.00 mm from Lahore during the week, however, cloudiness in the morning/evening was recorded as 1.4/2.0 Oktas during the week while average relative humidity was observed as 36%. Mean day time temperature was recorded as 39.3°C & for the recent week, 159.4 growing degree days were accumulated for Maize crop. Mean wind speed recorded in the morning/evening as 4.0/3.4 Knots.

Zhob

Dry weather was reported from Zhob during the week, however, cloudiness in the morning/evening was recorded as 1.7/0.6 Oktas during the week while average relative humidity was observed as 18%. Mean day time temperature was recorded as 37.3°C & for the recent week, 179.3 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 3.4/2.0 Knots.

Murree

Rainfall was reported as 2.00 mm from Murree during the week; however, cloudiness in the morning/evening was recorded as 2.3/2.1 Oktas during the week, while average relative humidity observed as 53%. Mean day time temperature was recorded as 25.0°C & for the recent week, 63.5 growing degree days were accumulated for Peanut crop. Mean wind speed recorded in the morning/evening as 1.7/1.1 Knots.

D.I. Khan

Dry weather was reported from D.I Khan during the week, however, cloudiness in the morning/evening recorded as 1.3/0.7 Oktas. Average relative humidity was observed as 43%. Mean day time temperature was recorded as 42.4°C & for the recent week, 173.5 growing degree days were accumulated for Maize crop. Mean wind speed recorded in the morning/evening as 3.1/3.1 Knots.

Peshawar

Dry weather was reported from Peshawar during the week; however, cloudiness in the morning/evening recorded as 1.4/1.9 Oktas while average relative humidity was observed as 48%. The mean day time temperature was recorded as 40.4°C & for the recent week, 151.3 growing degree days were accumulated for Maize crop. Mean wind speed recorded in the morning/evening as 2.3/2.3 Knots.

Kalam

Dry weather was reported from Kalam during the week; however, cloudiness in the morning/evening was recorded as 2.0/3.3 Oktas while average relative humidity was observed as 38%. The mean day time temperature was recorded as 25.9°C & for the recent week, 54.5 growing degree days were accumulated for Maize crop. Mean wind speed recorded in the morning/evening as 2.0/0.0 Knots.

Gilgit

Rainfall was reported as 2.80 mm from Gilgit during the week; cloudiness in the morning/evening was recorded as 4.1/3.7 Oktas while average relative humidity was observed as 38%. Mean day time temperature recorded as 32.1°C & for the recent week, 123.3 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 16.6/1.4 Knots.

Skardu

Rainfall was reported as 5.80 mm from Skardu during the week; however, cloudiness in the morning/evening was recorded as 2.9/3.3 Oktas

while average relative humidity was observed as 38%. The mean day time temperature recorded as 25.5°C & for the recent week, 86.1 growing degree days were accumulated for Wheat crop. Mean wind speed recorded in the morning/evening as 2.3/0.0 Knots.

**Crop Situation for Major Agricultural Plains
(Based on data from Regional Agromet Centers)**

Pothohar Region (Rawalpindi)

There is presently no crop grown in the fields of RAMC Rawalpindi.

Central Punjab (Faisalabad)

Cotton crop has been sown in the fields of RAMC Faisalabad. Phonological Stage: Third Leaf completed.

Condition: *Very Good*.

Lower Sindh (Tandojam)

Cotton crop has been sown in the fields of RAMC Tandojam. Phonological Stage: Third Leaf.

Condition: *Good*.

Northern Baluchistan (Quetta)

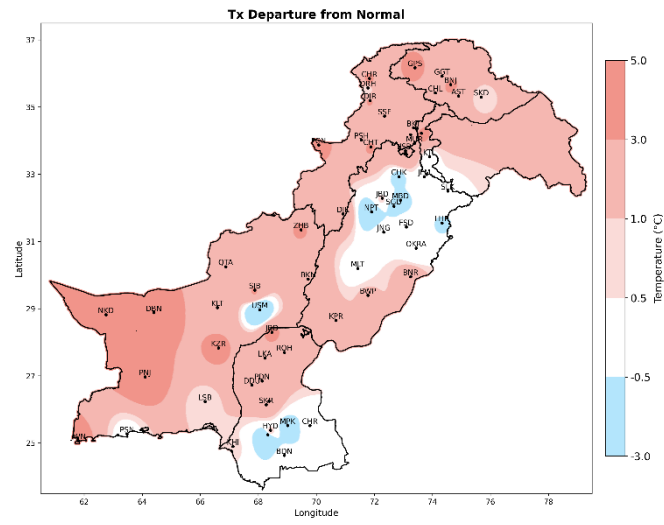

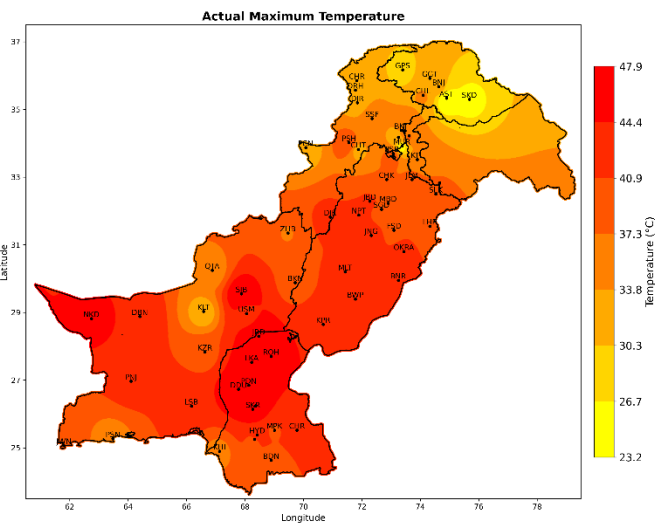

Wheat is sown in the fields of RAMC Quetta.

Phonological Stage: Full Maturity. Condition: *Good*.

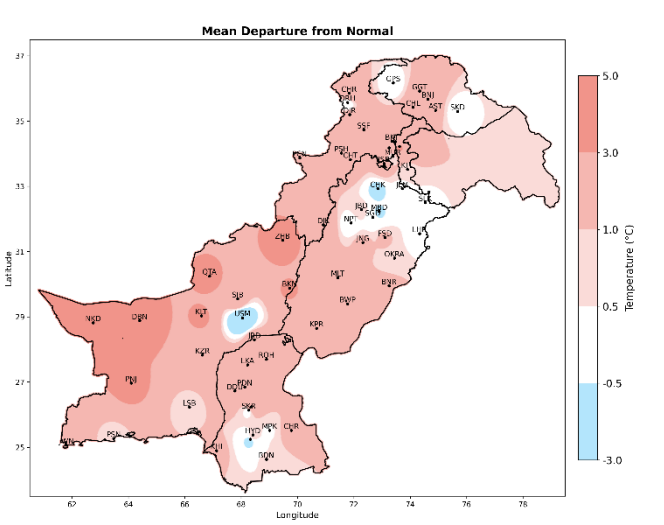

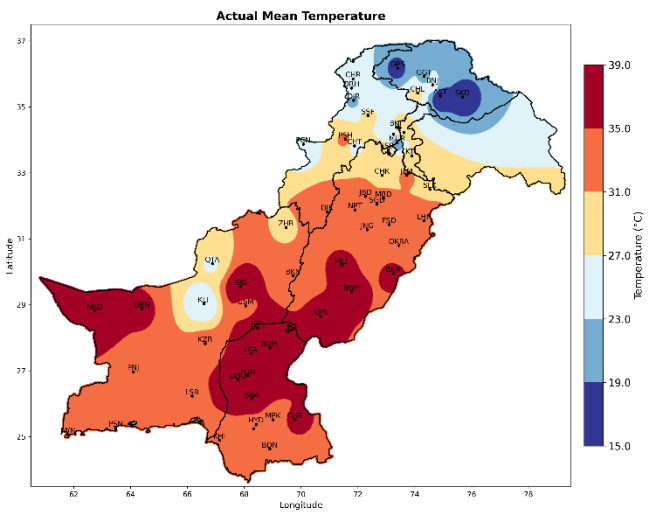

Eastern Baluchistan (Usta Muhammad)

Field is being prepared for the sowing of next crop.

Weekly Weather Forecast and Advisory for Farmers**(1st – 07th June 2026)**

Continental air is prevailing over most parts of the country. A high pressure is likely to develop in upper atmosphere on 25th May and likely to strengthen on 26th May.

MONDAY**01-06-2026**

Mainly hot and dry weather is expected over most parts of the country, while very hot in southern districts. Partly cloudy weather with rain wind-thunderstorm may occur at isolated places in south Punjab (Murree, Galliyat, Jhelum, Rawalpindi, Islamabad, Bahawalpur, Khanpur, Rahim Yar Khan, Dera Ghazi Khan, Taunsa and Rajanpur) and northeastern Balochistan (Nasirabad, Kohlu, Barkhan, Musakhel, Khuzdar and surrounding areas) during evening/night.

TUESDAY**02-06-2026**

Mainly hot and dry weather is expected over most parts of the country, while very hot in Balochistan and Sindh. Partly cloudy weather with rain wind-thunderstorm may occur at isolated places in south Punjab (Murree, Galliyat, Sargodha, Attock, Lahore, Islamabad, Rawalpindi, Sialkot, Gujranwala, Narowal, Faisalabad, Bahawalpur, Bahawalnagar, Khanpur, Rahim Yar Khan, Dera Ghazi Khan and Rajanpur) and northeastern Balochistan (Nasirabad, Kohlu, Barkhan, Musakhel, Khuzdar and surrounding areas), Khyber Pakhtunkhwa (Kohistan, Battagram, Abbottabad, Kalam, Swat, Malakand, Karak, Bannu, Kohat, Momand, Waziristan and surrounding areas) and Kashmir during evening/night.

WEDNESDAY**03-06-2026**

Mainly hot and dry weather is expected in most parts of the country. Windstorm accompanied with rain/thunderstorm is likely in Khyber Pakhtunkhwa, Gilgit Baltistan, Kashmir, northeast Balochistan and scattered places of Punjab.

THURSDAY**04-06-2026**

Windstorm accompanied with rain/thunderstorm is likely in Khyber Pakhtunkhwa, Gilgit Baltistan, Kashmir, Potohar region, upper/central Punjab and northeast Balochistan. Hot and dry weather is likely elsewhere in the country.

FRIDAY**05-06-2026**

Mainly hot and dry weather is expected in most parts of the country. Windstorm accompanied with rain/thunderstorm is likely in upper/central Khyber Pakhtunkhwa, Gilgit Baltistan, Kashmir and Potohar region.

SATURDAY**06-06-2026**

Mainly hot and dry weather is expected in most parts of the country. While rain-wind/thunderstorm is likely at isolated places in upper Khyber Pakhtunkhwa, Gilgit Baltistan, Kashmir, eastern Punjab and Potohar region.

SUNDAY**07-06-2026**

Mainly hot and dry weather is expected in most parts of the country. While rain-wind/thunderstorm is likely at isolated places in upper Khyber Pakhtunkhwa, Gilgit Baltistan and Kashmir.

ADVISORY FOR FARMERS

- Farmers are advised to complete the sowing of Kharif crops at the earliest.
- Farmers in specific rainfed areas of Punjab, Khyber Pakhtunkhwa and Sindh are advised to complete the sowing of peanut in vacant lands in a timely manner.
- Furthermore, farmers are advised to make necessary arrangements for the irrigation and if required apply pest-control sprays in accordance with the recommendations of the agriculture department.
